

Portable Belt Feeders - Built Tough To Work Tough!

For over 25 years Fab Tec Belt Feeders have been proving that if aggregate equipment is built tough, it will work tough in a variety of demanding applications.

Standard 20 HP Belt Feeder drive:

- Falk 5215 shaft mount reducer and #120 chain drive reduction.
- 16" vulcanized lagged pulley mounted on 2 15/16" alloy shafts and Dodge SCM bearings.
- Heavy duty drives are readily available with 30 HP motors, #140 chain reduction, and oversize shafts and bearings.

Belt & Idler system:

- 3 ply belt with optional vulcanized splice. Optional 675# belt for extreme applications.
- Close setting C5" steel rolls , or Rubber Impact idlers.
- Skirt board available in rubber, AB50, or Canoe Liners.
- Belt scrapers in either Fab Tec Combi-wipe or Superior Exterra system.
